

Full Protocol Statements

To be used in conjunction with the *OBSERVATION and INVESTIGATION Assessments Sheet*

The *Protocol Statement* Document is designed to investigate if there are any malfunctioning frequencies within the physical body and the body's 3 energy/electrical systems

This is done using Muscle testing to

- identify the malfunctioning frequency
- date and track the cause
- identify the correct frequency for correction and frequency order

NOTE : Life force and biodynamic frequency are interchangeable terms

The statements are in the same order as the “*Observation and Assessment sheet*” with some examples of common methods used for correction.

However each Client must be treated as an individual so it is *important* to remember that ***not all common correction methods are suitable for everyone.***

The “Protocol Statements” are designed to be used as a general guide. Although ***the order of investigation is important*** not every Client will require the full intensive investigation in each section.

Key points:

The following are specific assessments that Cameron Dawson always addressed at every appointment

Leg length

Sphenoid

Left and Right temporal

Chakras

Auric fields

Meridians

Meridian malfunction from someone else.

Life force

Lowest life force System/organ/body part

Sacro-occipital pump.

Full Protocol Statements

<u>Subject</u>	<u>Sub section</u>	<u>Page number</u>
<u>OBSERVATION PROCEDURE</u>		
Skeletal System (Observation):		
	Skull: cranial plates and facial bones and other bones	3
<u>INVESTIGATION PROCEDURE</u>		
<i>The 3 Electrical Systems:</i>		4-8
	1) Chakras	4
	2) Auric Fields	5
	3) Meridians	6
	Life force/ Biodynamic frequency	7-8
<i>Physical Systems</i>		
Organic (Physical)System:		9
Reflux:		9
Cells Malfunction:		10
Amygdala:		10
Genes Attuned /Biological time Clock:		10
Perpetuating Gene Fault		10
Shape Field:		10
Sacro-Occipital Pump process:		9-10
Thought patterns/phobia's/State of Anxiety		11
Memorys		12
Skeletal System	Spinal Investigation	12
Eyes:		13
Olfactory:(smell)		13
Ears:		14

HOW TO USE

- The statements to be used by the practitioner are in **bold text**.
- **X-** refers at all times to the patient's name.
- Use appropriate word from the list within the standard sentence.

Full Protocol Statements

OBSERVATION PROCEDURE

- Physical Indicators see assessment sheet
- Cranial Plates and Bones see assessment sheet
- Substance intolerance see Attachment # 1sheet
- Body Test Points see Attachment #2

Skeletal System:

1) Skull

- a) **All the cranial plates of the skull and facial bones are articulating correctly**
If weak, check the following

Thebone/plate /suture is articulating correctly

***Sphenoid: tilted high right/left/jammed up**

Occiput

***Temporal: left and right**

Frontal

Parietal: left and right

Sagittal Suture

Coronal Suture: left and right

Lambdoid Suture

Facial and other bones:

Nasal bone

Frontal-Nasal Articulation

Lacrimal: left and right

Ethmoid

Vomer

Palatine: left and right

Zygomat: left and right

Maxilla: left and right

Mandible

Teeth

***Atlas (C1)**

Full Protocol Statements

INVESTIGATION PROCEDURE

The 3 Electrical Systems

- 1) Chakras
 - a) **All the 7 Chakra are functioning at the correct frequency**
If weak, check
The Chakra Frequency is functioning correctly
 - Crown
 - Brow
 - Thyroid
 - Heart
 - Hara
 - Reproduction
 - Base
 - b) **All Chakras are entering the body in their 12 correct positions**
If weak, check whether they are entering
The Chakra is entering...(mark on Assessment sheet position failure)
 - Crown
 - Brow
 - Thyroid
 - Heart
 - Hara “
 - Reproduction “
 - Base “
 - c) **All Chakras are attuned through to the.....**
 - Kundalini
 - From the Kundalini to the**
 - Meridians
 - From the Meridians to the**
 - Organs
 - 3 Nervous Systems:
 - -Cells
 - d) **All the chakras are functioning emotionally at a 100%**
(or: The emotional content of all the chakras is at 100%)
If not – determine the percentage for each chakra
 - e) **All the Minor Chakra frequencies are functioning correctly**
 - f) **All the Minor Chakras are exiting from their correct positions**

Full Protocol Statements

2) Auric Fields

a) **All the Auric Fields (AF) are functioning correctly**

If weak check:

Auric Field..... is malfunctioning

AF 7 (Infinity)

AF 6 (World)

AF 5 (Danger)

AF 4 (Personal space)

AF 3 (Substance identification)

AF 2 (Skin and bone- fascia direction/ check both and correct separately)

Kundalini

b) **All the Auric fields are connected and attuned through to the.....**

-Kundalini

From the Kundalini to the

-

-Meridians

From the Meridians to the

- Organs

- 3 Nervous Systems:

- Cells.

All Auric fields are functioning emotionally at 100%

If weak – determine the percentage for each Auric field.

Full Protocol Statements

3) Meridians

- a) **There is a meridian malfunction in some other person or persons affecting X**

If strong, identify.

- Which meridian/s
- Find the source/s

If necessary Trace the family tree

- b) **There is a thought pattern, emotion, phobia or anxiety state from another person affecting x**

- c) **There is a meridian malfunction in X affecting some other person**

If strong, identify (eg family, friend etc.)

Introductory Course Participants do not test for the following statement it is for Clinical Practitioners only to address

- d) **There is a residual meridian malfunction affecting X (at home, work, other places)**

If strong, trace the source

(eg deceased previous house, local murder victim, fatal accident victim etc. and determine the location of the RM geographically.)

All 14 Meridians are functioning correctly

If weak, check

We need to correct how many meridians? 1, 2, 3 etc. up to 14

- e) **There is a meridian/s of the Right that requires correction**

If strong identify how many and which ones

A correction is required for the.....meridian

Governing

NOTE: To fast track identify if top 3 or bottom 3

Top 3 -Lung - Spleen - Liver

Bottom 3 -Gall Bladder - Large Intestine Kidney

- f) **There is a meridian/s of the Left**

If strong identify how many and which ones

A correction is required for the.....meridian

Conception

To fast track identify if top 3 or bottom 3

Top 3 Circulation Sex Heart Stomach

Bottom 3 Thyroid Small Intestine Bladder

Full Protocol Statements

Life force/ Biodynamic frequency

NOTE : Life force frequency and Biodynamic frequency are interchangeable terms so use which suits you

a)The Life Force frequency of all Organs is at maximum *and or* (is 77.68 MHz)

If weak, check

Bones

Gland

Blood components

Nervous System,skin / hair

Muscle

Eye

Ear

nose

FOR PRACTITIONER ONLY: *If life force frequency is very low then assess for possible cell malfunction. See 5. Cell Malfunction*

Identify which organ using list below

[This is usually ***but not always*** necessary when cell malfunction has been identified in a body]

Identify the percentage of each Organ/Body part, ***function*** using the list below.

- All bones of skeletal system -identify if whole system or which individual bones that may be malfunctioning....
- Bone marrow
- Left Lung or Right Lung, Bronchi
- Central nervous system or a nerve/s emanating from vertebrae:
- Sympathetic or a nerve/s emanating from vertebrae:
- Parasympathetic nervous system
- Pelvic nerve
- Vagus nerve
- Nerves emanating from medulla:
- Nerves emanating from midbrain
- Alimentary Canal separate areas Oesophagus, Stomach, Small Intestine, Large Intestine, other
- Gall bladder Spleen, Pancreas, Common Bile Duct.
- Kidney, right /left
- Liver
- Spleen
- Heart
- Red corpuscles
- Lymphocytes
- Lymphatic system
- Endocrine System: Glands – Pineal, Pituitary, Hypothalamus, Hippocampus, Amygdala
- Sublingual

Full Protocol Statements

- Skin
- Tissues of the Ear, Nose and Throat.
- Any other organs?
- Nails
- Teeth
- Hair

Note: A correction can be made through a meridian or perhaps using Chakra bowls in tantric order.

Full Protocol Statements

Physical Systems

- b) **The Organic (physical) function of all the organs . is at 100%**
If weak identify using above list
- c) **The Organic (physical) function of all the..... is at% of maximum**
- d) **All valves and sphincters connecting organs or vessels are functioning correctly**

Check list

Digestive System: Oesophageal, Pyloric ,Anal Sphincter **Ileocaecal valve**

Cardiovascular System:(Heart) Atrio ventricular, Aortic, Pulmonary, Mitral, Tricuspid,
, and all other venous valves

Reflux

- a. **There is Reflux somewhere in X**
If strong, investigate further
- b. **There is Reflux in the Pancreas, Common Bile Duct**
- c. **There is Reflux in the Kidney, right/ left**
- d. **There is Reflux in the Ureter right/ left**
- e. **There is Reflux in the Urethras right/ left**
- f. **There is Reflux in the Alimentary Canal, identify area**
- g. **There is Reflux in the Fallopian Tubes, right /left**
- h. **There is Reflux in the Vas Deferens, Epididymis, right / left**
- i. **There is Reflux in Cerebro Spinal Fluid**
- j. **There is Reflux in the brain (physical). If yes – how many places**
- k. **There is a Mental Reflux in the Right and Left Cerebrae.**
- l. **There is Reflux somewhere else in the body**
If strong, can be corrected by.....(usually Gall Bladder/Spleen)
- m. **There is mental reflux in X**
If strong, can be corrected by (Spleen /Gall Bladder)

Full Protocol Statements

Cell Malfunction

NOTE : State the following silently:

There are Malfunctioning Cells in X's body

If strong, identify organ / organs and biodynamic frequencies of organ/s; including bones and bone marrow, red blood system, lymph system and lymphatic fluid.

There is a frequency in the Cotton Frequency Register that is of benefit to X

If strong, determine which cotton frequency and which relevant are to be played

Amygdala

The Amygdala needs to be reprogrammed

If strong check if Left /Right or both.

Genes Attuned / Biological time clock

- a **Genes are attuned to the.....**
 - Southern Hemisphere
 - Tropics
 - Northern Hemisphere
- b **X's biological time clock is set to their present time.**
- c **X's biological time clock is set to their present longitudinal position.**
- d **.The biological time clock is functioning in the correct season.**

Perpetuating Gene Fault / Fault

- a **There is a perpetuating GENE FAULT emanating from an ancestor affecting X**
If strong, trace family tree and correct
- b **There is a perpetuating FAULT emanating from an ancestor affecting X**
If strong, trace family tree and correct

Shape Fields

Every shape field on every meridian is functioning correctly

If weak, investigate how many meridians there are with malfunctioning shape fields

NOTE: If there is more than one meridian shape field malfunction, corrections are to be made in meridian tantric order.

Full Protocol Statements

The Sacro-Occipital Pump Process

a. The Sacro-Occipital pump is functioning correctly.

If weak, investigate further:

b. The Sacro –Occipital should be functioning in deep sleep at movements per minute.(determine the number of movements eg 20-25)

c. The Sacro-Occipital pump is functioning in deep sleep atmovements per minute.

d.The Sacro-Occipital pump should functioning in active mode atmovements per minute (determine the number of movements eg 12-15)

e.The Sacro-Occipital pump is functioning in active mode atmovements per minute

f.Pressure of Cerebrospinal Fluid is correct.

g.The Lifeforce (biodynamic) frequency of Cerebrospinal Fluid is at maximum.

if weak, identify

h.The Lifeforce (biodynamic) frequency of brain cells is at maximum.

If weak, identify

i. The Dura -Mater is permeable

If weak, and the Dura -Mater is impermeable is usually caused by Rage, determine when this rage occurred and correct through the Gall Bladder meridian.

j. There is reflux in the Cerebrospinal fluid

k. There is partial reflux in the Cerebrospinal fluid

If partial identify which nerve structures

If strong correct through the spleen meridian.

I. There is crystallization in the Cerebrospinal fluid

II. There are Toxins/bacteria/virus present in the Cerebrospinal fluid

Thought patterns /Phobia's/State of Anxiety

There is a.....

- **Thought Pattern to be corrected**
- **Emotion**
- **Phobia**
- **State of anxiety**
- **State of deep seated anxiety**
(if strong investigate Especially in relation to the

Full Protocol Statements

Memorys

- a. There is a memory of a.....
- Meridian malfunction
 - Viral Infection
 - Bacterial Infection
 - Thought Pattern to be corrected
 - Emotion to be corrected
 - Phobia to be corrected

Skeletal System (Investigation)

Spinal Investigation

- e) **All the vertebrae are located in their correct electrical fields**
If weak, investigate
*For intensive investigation and demonstration check each vertebra in the spine.
Where appropriate mark the spinal processes with felt tip pen to indicate visual misalignment and record on film. Use knowledge of subluxation sequences.*
- f) **There is a vertebral subluxation/s that can be corrected by a meridian trace.**
(as distinct from correcting a meridian malfunction)
- g) **There is a muscle associated with the sacrum we need to correct.**
Correct with the 39'er
- h) **There is a muscle associated with the spine we need to correct.**
If strong identify
- i) **All inter-vertebral discs are functioning correctly**
If weak investigate
- j) **There is negative feedback from the spine to a gland.**
If strong identify
- k) **There is a negative feedback from a gland to the spine.**
If strong identify
- l) **There is a negative feedback from the spine to an organ.**
If strong identify
- m) **There is a negative feedback from an organ to the spine**
Identify which organ:
- n) **There is a negative feedback from the spine to one of the three nervous systems**
Identify which nervous system:
- o) **There is a negative feedback from one of the three nervous systems to the spine**
Identify which nervous system:

Full Protocol Statements

The following statements are usually addressed on the second visit.

Eyes

a. The Bio-dynamic frequency of the fluid in the right /left eye is functioning a

:..... MHz and or

: maximum

If weak, investigate further

b. The pressure of the fluid of the right/left eye is at maximum

If weak, investigate further

It is less or more

c. The Life force (Biodynamic) frequency of the retina in the right /left eye is functioning

:atmaximum and or

:at.....MHz

Trace optic function with these series of questions

d. The Life force (biodynamic) frequency is functioning at maximum:

- Optic Nerve- right/left
- Right Brain to Chiasma
- Left Brain to Chiasma
- Chiasma to right Eye
- Chiasma to left Eye
- Chiasma itself

Check eye function with muscle test:

[If tracking check is negative, identify the meridian to correct.]

- Eyes open
- Eyes closed
- Look right / look left/ look up/ look down
- Track from side to side
- Circle right/ circle left

Check both eyes with muscle test:

- Muscles of Levator Palpebra right/left-superior/inferior
- Nerves to Pupil right/left
- Muscles of Iris
- Nerves of Iris
- Frequency of Retina
- Physical pressure of left and right eye of 100% or 100%+

The Olfactory system

The Olfactory system is functioning correctly

If weak, investigate and correct through a meridian.

Full Protocol Statements

Ears

- a. **The Biodynamic frequency of the right ear is at maximum**
If weak, investigate further list below
- b. **The Biodynamic frequency of the left ear is at maximum**
If weak, investigate further list below
- c. **The Biodynamic frequency of the tympanic membrane in the right/left ear is at maximum**
- d. **The Biodynamic frequency of the malleus incus and stapes in the right/left ear is at maximum frequency....**
 - a. **The Biodynamic frequency of the vestibule in the left / right ear is at maximum frequency**
 - b. **The Biodynamic frequency of the three semi-circular canals is at maximum frequency**
 - c. **The Organic function of the is at maximum function in the right ear .**
If weak determine the %

The Organic (physical) function of theis % of maximum function
 - d. **The Organic function of theis at maximum in the left/right ear**
If weak determine the %

The Organic (physical) function of the is % of maximum function

Identify the % of bio-dynamic function of each organ using the list below

- Ear Drum
- Malleus
- Incus
- Stapes
- Hangers
- Body of Vestibule
- Body of 3 Semi Circular Canals
- Body of Cochlea
- The organ of Conti
- Fluid in the Vestibule
- Fluid in the 3 Semi Circular Canals
- Fluid in the Cochlea
- Fluid of Vestibule
- Vestibula Nerve (balance)
- Cochlea Nerve (hearing)
